

Qualys Integrations

Unlock the Full Potential of Your Qualys Investment

Why ImagineX

ImagineX accelerates the realization of value from Qualys deployments, combining extensive product knowledge with practical, security-focused services honed over 50+ collective years.

ImagineX provides targeted expertise across the Qualys suite, including CSAM, VMDR, Policy Audit, Patch Management, TotalCloud, and ETM/mROC. We accelerate time-to-value through tailored implementation strategies, insightful assessments that identify critical gaps, and seamless custom integrations that enhance existing security ecosystems.

Trusted by leading organizations, including top 500 enterprises, ImagineX has a demonstrated history of enhancing Qualys implementations. With over 150 successful projects delivered since 2016, our expertise translates into tangible security gains for complex environments.

ImagineX's status as a Qualys mROC Alliance Partner signifies our enhanced capabilities in delivering full-spectrum Qualys services. We bridge the gap between technical findings and business impact, ensuring risk management decisions are strategically informed and aligned with your organization's risk appetite.

ImagineX are experts at integrating the Qualys platform with your existing security ecosystem, maximizing your security investment and streamlining your workflows. We understand that a unified security approach is critical, and our proven experience with Fortune 500 companies demonstrates our ability to seamlessly connect Qualys with a wide range of tools.

Beyond Ticketing

While we excel at integrating Qualys with ticketing systems and automating remediation workflows, our expertise extends far beyond. We create bespoke integrations with various security tools, including SIEM platforms, Asset Management Systems, or Remediation Workflow Automation Tools.

Tailored Integrations for Your Needs

Our Qualys Subject Matter Experts and Data Integration Specialists work closely with your security stakeholders to understand your specific requirements. We analyze your current processes and identify opportunities to optimize your security tool stack. Whether you need out-of-the-box integrations or custom-built solutions, we ensure a seamless and efficient deployment.

Comprehensive Approach

From initial consultation and design to implementation and ongoing support, ImagineX provides end-to-end integration services. We validate the accuracy and effectiveness of the integration, ensuring that your data flows seamlessly and your team is equipped to leverage the enhanced capabilities. We empower your security teams with best practices and training, allowing them to maximize the value of your integrated security platform.

Let ImagineX help you unlock the full potential of your Qualys investment and build a truly unified security ecosystem.
